1. Comment. All troop trains have been repeatedly confirmed by several other reports. It is noticeable that the troop train

was reported with Bernau as receiving station. Other observations indicated that the train carried contingents of the 71st Light Arty Brig (US) which returned to Zehdenick after termination of the field exercises of the IX Mtz Rifle Corps between 27 and 30 September 1953. It can also be assumed, however, that the troop train was redispached to the home station of the brigade. Pertinent information is not available.
